

## Pharmaceutical & Life Sciences Industry

The Pharmaceutical & Life Sciences industry in Slovakia is represented mainly by the production of pharmaceuticals, medical devices and cosmetics. Thanks to the strong focus on R&D, pharmaceutical industry always offers new interesting investment opportunities. Companies with R&D in Slovakia achieve success in areas such as medical 3D printing of prosthesis, development of exceptionally sterile material, the new protein to repair damaged DNA or Trisomy Test, which serves for non-invasive diagnosis of Down syndrome.

SARIO constantly monitors the development in selected industries and prepares overviews in English.
