

Qualification programmes

Based on the outputs obtained from this activity, which will clearly and accurately identify companies with potential for growth, there will be set up the realization of qualification programmes that will aim toward increasing of professionalism of SMEs. The goal of the project will be to bring closer to reality the SMEs' opportunity to apply for a Tier 3 (or Tier 2) position of suppliers into key areas of Slovak industry. It is expected that this will be reflected in an increased degree of participation of Slovak SMEs in subcontractor chains at home and in countries in vicinity, and secondarily in increased ability of these SMEs to be competitive in other foreign markets.
