About us

SARIO – The Slovak investment and trade development agency is a governmental agency of the Slovak Republic founded by the Ministry of Economy of the Slovak Republic.

OUR MISSION

SARIO strives for an influx of investments with export potential and added value to Slovakia and supports the export activities of Slovak companies to world markets.

SUCCESSFUL INVESTMENT PROJECTS

Volvo Cars, Jaguar Land Rover, Volkswagen, Kia, Stellantis, Amazon, IBM, Dell, Johnson Controls, Embraco, Samsung, Honeywell, Minebea and many more.

INVESTMENT PROJECTS

Services for investors

SARIO provides comprehensive tailored services to incoming and established investors.

INFORMATION & CONSULTATION

SARIO offers detailed information about Slovakia's investment and business environment.

Based on the investors' individual needs, SARIO delivers analyses on workforce availability and quality, the educational system, and assists in identifying potential local suppliers, providers of technological and process solutions.

SARIO provides consultation on various support mechanisms, including the regional investment aid scheme and the additional deduction for research & development.

SUPPORT & ASSISTANCE

The support includes the selection of suitable industrial properties and facilitating site inspections in collaboration with SARIO's regional offices.

SARIO assists with the establishment or expansion of companies in Slovakia and supports the relocation of highly qualified employees from third countries.

NETWORKING

Based on individual needs, SARIO connects investors with municipalities, local partners, and facilitates links between universities, schools, and research centers to foster collaboration.

Slovak space office

The Slovak Space Office project was created together with the Ministry of Education, Research, Development and Youth of the Slovak Republic. SARIO is responsible for the implementation side of the agenda, focusing on the development of the space ecosystem and fostering local and international partnerships.

SERVICES FOR NEW COMPANIES

SARIO provides comprehensive information on opportunities in the global space economy, assists companies in identifying entry points into the sector based on their technological competencies, helps in finding potential partners, and setting strategic direction. Additionally, SARIO offers an incubation program for start-ups entering the space sector.

SERVICES FOR ESTABLISHED COMPANIES

For companies already operating in the space economy, SARIO offers consultations on scaling projects, establishing new local and international partnerships, identifying new business and research opportunities, and providing platforms for Slovak companies to showcase their capabilities.

Support for the internationalization of small & medium-sized enterprises

SARIO supports the creation of business opportunities with international partners through various instruments of the National Project, funded by structural funds.

NATIONAL STANDS AT FOREIGN FAIRS & EXHIBITIONS

Participation in fairs provides a platform for the presentation of goods and services through national stands, but also for individual participation.

BUSINESS MISSIONS IN SLOVAKIA & ABROAD

Missions provide the opportunity to establish new business contacts and cooperation abroad. In addition to B2B negotiations, the program may also include complementary activities.

COOPERATIVE EVENTS

These events aim to present opportunities for the trade of products, solutions and services, the formation of joint ventures, the presentation of available production capacities, and business opportunities.

EXPORT ACADEMY

The agency conducts training, consulting, and skill-building activities in the field of foreign trade.

SUPPLY CHAINS DEVELOPMENT & NETWORKING

The goal is to increase the involvement of Slovak SMEs in transnational supply networks and provide a platform for promoting their activities.
