Tender procedure for the public contract of the ?RA - "Preparation of a technical-economic feasibility study to ensure access to drinking water for the regional hospitals of Cimișlia and Comrat" - 2nd announcement

deadline 09/08/2022

The Czech Development Agency announces, within the framework of the Czech Republic's Foreign Development Cooperation Plan for the year 2022, approved by the government on June 14, 2021, a small-scale public order entitled "Preparation of a technical-economic feasibility study to ensure access to drinking water for Cimișlia and Comrat regional hospitals".

The subject of the public contract is the preparation of a technical-economic feasibility study to ensure access to drinking water for the Cimișlia and Comrat regional hospitals in Moldova. The contract will be implemented as part of the project "Ensuring access to drinking water for Cimișlia and Comrat Regional Hospitals" and will take place in 2022. In addition to the preparation of a technical-economic feasibility study, an exploratory hydrogeological well for Comrat Hospital will be carried out as part of the contract. More detailed information on performance is given in the technical specification and in other appendices.

The total estimated value of the public contract is CZK 1,750,000 excluding VAT.

The offer must be submitted by the deadline for the submission of offers, which is set until 9 August 2022 at 10:00 a.m., in writing in electronic form through the National Electronic Instrument (NEN). Participants will obtain the necessary information for submitting bids in the

NEN from the tender documentation.

More information, including tender documentation, can be found on the contractor's profile pages.

Tender of the public contract of the Czech Republic - "Preparation of a technical and economic feasibility study to ensure access to drinking water for the Cimișlia and Comrat regional hospitals"

Deadline 05/05/2022

As part of the Czech Republic's Foreign Development Cooperation Plan for 2022, approved by the government on 14 June 2021, the Czech Development Agency announces a small-scale public contract entitled "Preparation of a technical and economic feasibility study to ensure access to drinking water for the Cimișlia and Comrat regional hospitals".

The subject of the public contract is the preparation of a technical and economic feasibility study to ensure access to drinking water for the Cimișlia and Comrat regional hospitals in Moldova. The contract will be implemented within the project "Ensuring access to drinking water for the Cimișlia and Comrat regional hospitals" and will take place in 2022. In addition to the elaboration of a technical and economic feasibility study, the contract will carry out an exploratory hydrogeological well for the Comrat hospital. Further information on performance is given in the technical specifications and other annexes.

The total estimated value of the public contract is CZK 1,750,000 excluding VAT.

The tender must be submitted within the deadline for submission of tenders, which is set by 5 May 2022 by 10:00 am, in writing in electronic form via the National Electronic Instrument (NEN).
