R&D & Innovation Sector in SLOVAKIA
R&D & Innovation Sector in Slovakia

Despite being viewed as a production powerhouse, Slovakia sees its future mainly in high value-added projects and investments, especially in R&D and innovative operations. This publication aims to introduce both existing as well as perspective areas of the Slovak R&D environment. Moreover, it highlights key advantages for investors why to locate their research facilities in Slovakia.

Overview of the R&D Sector in Slovakia

R&D is the fundamental precondition for increasing competitiveness and maintaining sustainable development. On top of that, it is inevitable for the long-term growth of knowledge economy in Slovakia. Slovak R&D has a long tradition and is capable of delivering internationally renowned cutting-edge solutions required in today's modern era.

Top Reasons to Establish an R&D Centre in Slovakia

1. Additional 200% tax deduction for R&D expenses
2. Attractive investment incentives for R&D and technology centres
3. Special tax regime for intellectual property revenues (patent box)
4. Stable economic & political environment with Euro currency
5. Qualified & cost-effective human resources
6. Universities providing multidisciplinary talent pool of graduates & postgraduates
7. CEE Leader in FDI and technology transfer — the best ability to adapt new technologies
8. Extensive R&D & innovation infrastructure (centres of excellence, technological parks and university science parks)
9. Established cooperation between industry & academia
10. The highest rate in the CEE region of higher added-value jobs as a % of total employment

Increase of nominal R&D expenditures in the last 10 years (both private & public)

516 R&D organisations and units in Slovakia, out of which 377 are from the private sector

People employed in the Slovak R&D sector

Proportion of companies carrying out innovative activities in Slovakia

Percentage of employees working in high-tech manufacturing & knowledge intensive services of total employment

Percentage of companies with innovative activities that have introduced a product innovation

When Innovation is Tradition

Slovakia’s abundant R&D potential lies mainly in its people. In the past, local inventors pushed the technological boundaries within several fields and created knowledge–based preconditions for modern industrial development. Building on this tradition of industrial innovation, many Slovak companies are pioneering development of cutting edge technologies.

AUREL STODOLA
steam and gas turbines, arm prosthetic

SPINEA
actuators, positioners

JOZEF K. HELL
water column pumping machines

GA DRILLING
Plasmabit® milling and drilling

JOZEF MURGAŠ

Examples of Other Notable Slovak Innovations

**Design**

- **ECOCAPSULE** Self-sustainable microhomes
- **WERKEMOTION** Transportation & industrial design R&D studio
- **MATADOR** Mobility solutions

Creativity and technology also come together in game design and development, a rising segment in which Slovak companies are beginning to play an important role.

**Gaming Industry**

- **PIXEL FEDERATION** Social media games/mobile & web-based games
- **STUDIO 727** 3D animations for the gaming industry
- **POWERPLAY STUDIO** Mobile and desktop games

The core of Slovakia’s technology potential comes from its firm base of home-grown IT companies, which are able to outrank their global competitors in several fields.

**ICT**

- **INNOVATRICS** Biometrics
- **SOITRON** Complex IT solutions
- **SVYGIC** Navigation systems

Much of Slovakia’s programming potential is embedded in local businesses delivering solutions for modern cities.

**Smart Cities**

- **SENSONEO** Waste management
- **CVIKER** VR/AR solutions for property technology
- **NG AVIATION** Airport digitisation

There are other notable sectors in which Slovak companies manage to push the frontiers of technological advancement.

**Space, Medtech, Electronics & Automotive**

- **TACHYUM** Universal processors
- **SPACEMANIC** Satellite components
- **MULTIPLEXDX** Cancer diagnostics
- **INOBAT** Batteries for electric vehicles

The core of Slovakia’s technology potential comes from its firm base of home-grown IT companies, which are able to outrank their global competitors in several fields.
Slovak R&D Sector in Figures

In the past decade, Slovak R&D has experienced a significant growth, establishing various centres of excellence, research and technology centres. The R&D expenditures in Slovakia are driven mainly by the business sector and technical sciences.

Government Strategies for R&D and Innovation

RIS3 — Research & Innovation Strategy for Smart Specialisation of the Slovak Republic
The national R&D strategy aims to support innovation through cooperation between industry and R&D capacities. It sets goals and policy measures linked to research, innovation and education and has been assessed as the best strategy among 15 countries by the European Commission.

The strategy is built on key sources of economic growth and competitive advantages of the Slovak Republic. Taking into account the best use of synergies between traditional economic sectors and fast-growing, perspective industries, it outlines several national R&D priorities.

Intelligent Industry Action Plan of the Slovak Republic
The Action Plan outlines a set of 35 measures to be implemented by the Slovak government by the end of 2020. It aims to create better conditions for implementing digitisation, innovative solutions and increase competitiveness of local companies on the global market. It introduces measures linked to reducing bureaucratic burdens, amending legislation, defining standards, changing education programmes and conditions on the labour market or co-financing research.

Prepared in cooperation with the representatives of industry, associations and academia, it identifies following priority areas:

- research, development and innovation
- basic principles of IT security implementation in the field of intelligent industry
- labour market and education
- reference architecture, standardisation, development of technical standards
- European and national legal frameworks
- popularisation and promotion
Slovakia has both substantial established and potential capabilities for the R&D. Innovation is being stimulated throughout the economy and sustained by both Slovak and foreign players.

Favourable Public R&D & Innovation Infrastructure

The public R&D infrastructure in Slovakia consists of highly competitive technical faculties at universities located all around the country, as well as of a wide network of institutes of the Slovak Academy of Sciences. Strong cooperation partnerships of both local and foreign companies, universities and research institutions is characteristic for Slovak R&D ecosystem.

PUBLIC R&D NETWORK
Numbers in the map correspond with the number of technical/ICT faculties, university science parks & technical research institutes of the Slovak Academy of Sciences in respective cities.

Slovak Academy of Sciences (SAS) is a public research institution established in 1942. It consists of 69 organisations where more than 2,000 scientists & approximately 500 PhD students conduct their research in a wide range of fields.

Institute of Materials and Machine Mechanics (Bratislava)
- advanced metallic materials R&D
- Partners & International Cooperation
  - European Space Agency, Hyundai Motor Europe

Institute of Electrical Engineering (Bratislava)
- semiconductors
- microelectronic sensors & detectors
- applied superconductivity
- Partners & International Cooperation
  - CERN, Victoria University

Institute of Informatics (Bratislava)
- ICT
- nano- & micro-structures
- robotics
- artificial intelligence
- Partners & International Cooperation
  - IEEE and ESFRI

Institute of Experimental Physics (Košice)
- applied physics
- chemical sciences
- biological sciences
- nanotechnology
- Partners & International Cooperation
  - CERN, European Space Agency
R&D Specialisation at the Largest Slovak Universities

SLOVAK UNIVERSITY OF TECHNOLOGY IN BRATISLAVA
Faculty of Electrical Engineering and IT
• National Centre of Robotics
• National Centre for Space Engineering
Partners & International Cooperation
• Siemens, Matador, Volkswagen

Faculty of Mechanical Engineering
• manufacturing technologies
• recycling of materials for the purpose of composite production
Partners & International Cooperation
• Volkswagen, Schaeffler, Brose

Faculty of Informatics & Information Technologies
• data analysis and information processing
• artificial intelligence
• cybersecurity
Partners & International Cooperation
• ESET (a specialised IT research centre in cooperation with the Faculty of Mathematics, Physics & Informatics of Comenius University)

Faculty of Material Sciences and Technology in Trnava
• SlovakIOn, one of the CEE’s leading research centres for ion beam & plasma technologies in materials engineering & nanotechnology
Partners & International Cooperation
• Johnson Controls, Bosch

Faculty of Chemical and Food Technology
• biotechnology
• chemical and biological protection of environment
Partners & International Cooperation
Volkswagen, Mondi, Matador

• Volkswagen, Siemens, U.S. Steel, Slovak Telecom

Faculty of Mechanical Engineering
• manufacturing technologies
• green & alternative fuel mobility
Partners & International Cooperation
• Honeywell, Embraco, Faurecia, Getrag

Faculty of Aeronautics
• air traffic management
• aerospace & space engineering
• aviation security and management
Partners & International Cooperation
• European Aviation Safety Agency, International Civil Aviation Organisation, International Astronautical Federation

University Science Park TECHNICOM, Košice
• ICT, smart industrial & transportation systems, progressive materials

UNIVERSITY OF ŽILINA
Faculty of Electrical Engineering and Information Technology
• ICT applied in transport and industry
• electronic systems & networks
Partners & International Cooperation
• Siemens, Panasonic, Brose

Faculty of Mechanical Engineering
• mechanical engineering
• materials engineering
• machines and equipment design
• automation of production systems
Partners & International Cooperation
• Volkswagen, KIA Motors, Schaeffler, Whirlpool

CETRA — Centre for Transport Research at University of Žilina
• alternative motor fuels
• rail freight transport

University Science Park, Žilina
• ICT, smart industrial & transportation systems, progressive materials
Apart from product development, Slovakia’s strong industrial heritage has also created an ecosystem of local companies active in the field of production process optimisation. As the implementation of Industry 4.0 is a necessity for all industrial facilities that want to maintain their competitive advantage, SARIO has created an entire service that aims to match the needs of the industry with the capabilities of the most advanced Slovak technology companies. From our experience, the Slovak Industry 4.0 competences focus mainly on areas highlighted below, the related companies are just examples of local providers capable of delivering state of the art solutions:

**The Slovak Industry 4.0 Ecosystem**

- **Visual Quality Checking**
  - Tangent Works
  - Trivia Data
  - Brain IT
  - Rossum Integration
  - Ditis
  - Stimba

- **Process Optimization & Robot Integration**
  - Photoneo
  - Bost

- **Digital Twin Solutions**
  - eDocu
  - Merchant
  - Marpex
  - iGrow Network
  - Dorps
  - CEIT
  - Ixworx
  - Infotech

- **AI, Big Data & Predictive Maintenance**
  - Anasoft

- **VR & AR**
  - Sova Digital

- **Industrial IoT**
  - Brain IT

SARIO Innovation Services
Innovate Your Business with Solutions Made in Slovakia!

SARIO Innovation Services — a matching platform of the Slovak Investment and Trade Development Agency (SARIO) interconnecting the needs of its major clients — large investors established in Slovakia — with capacities and competences of the most advanced and innovative Slovak technology companies.

SARIO organises tailor-made workshops, which on one side serve as a business development channel for Slovak solution providers, on the other are aimed to innovate technological processes of its major clients. These services are not limited to the borders of Slovakia and they also focus on venture capital related M&A matchmaking.

SARIO INNOVATION SERVICES FOCUS ON, BUT ARE NOT LIMITED TO
• Industry — automation, predictive maintenance, quality control, digital factory solutions
• Product development — design, prototyping, testing, tooling
• Services sector — software automation, outsourcing, cybersecurity, big data & AI

OUR TRACK RECORD (SELECTED EVENTS)
• Jaguar Land Rover Innovation Workshop — process innovation, Nitra (Slovakia)
• PSA Innovation Day — process innovation, Trnava (Slovakia)
• VW/Audi Innovation Sourcing Day — product innovation, Budapest, (Hungary)
• Integr8 Conference — process innovation, Detroit (USA)
• MinebeaMitsumi Automation Workshop — process innovation, Bratislava (Slovakia)
• Mitsubishi Innovation Sourcing — M&A scouting, Bratislava (Slovakia)

The agency plans to scale these services by addressing a wider range of clients from various sectors and identifying new potential Slovak solution providers, capable of succeeding on international markets.

www.innovatewithsario.com

“Slovak companies can bring innovation to global players! In the past 3 years more than one third of the Slovak solution providers, which participated in our workshops, got selected for follow-up meetings by our major clients. A half of these meetings ended up either with price quotation requests or pilot projects.”
Marek Kopanický, Innovation Lead & Consultant, SARIO

“Our vision is to help transform Slovakia into a technological & innovative hub and become the partner of choice for companies considering to invest in Central Europe.”
Róbert Šimončič, CEO SARIO

www.innovatewithsario.com
Schemes Designed for Supporting R&D in Slovakia

INVESTMENT INCENTIVES FOR TECHNOLOGY CENTRES
The primary role of the investment incentives is to motivate companies to place their new investment projects in regions with higher unemployment and to attract projects with higher added value. The positive impact of a new investment shall be proved by job creation, improved chances for the graduates to get a job and higher proportion of sophisticated operations in Slovakia.

ELIGIBLE COSTS
- Costs of land acquisition
- Costs of buildings acquisition & construction
- Costs of new technological equipment and machinery acquisition
- Intangible long-term assets — licences, patents, etc.
- Rent of new land/building
OR
- Wage costs of new employees for the period of 2 years

FORMS OF INVESTMENT INCENTIVES
- Tax relief
- Cash grant
- Contributions for the newly created jobs
- Rent/Sale of real estate for a discounted price

MINIMUM CONDITIONS FOR TECHNOLOGY CENTRES*
- Minimum investment of 200 ths. EUR on fixed assets in all regions
- Minimum of 20 newly created jobs
- Minimum 1.7 fold of average salary in the district paid to new employees

*Conditions differ for projects from 'Priority areas'. Please contact us at invest@sario.sk for more information.

R&D EXPENSES SUPERDEDUCTION — SPECIAL R&D TAX REGIME
Companies with the R&D activities can benefit from the special tax regime. By the calculation of the income tax, the additional 200% of the R&D expenses can be deducted from the tax base. As a result, for every 100 EUR spent on the R&D activities, company can save additional 42 EUR (respecting the current income tax rate 21%).

SUPERDEDUCTION RATE

<table>
<thead>
<tr>
<th>Year</th>

SARIO Profile

Slovak Investment & Trade Development Agency (SARIO) is a governmental investment and trade promotion agency of the Slovak Republic. The agency was established in 2001 and it operates under the Slovak Ministry of Economy.

01 INVESTMENT SERVICES

FOR POTENTIAL INVESTORS
- investment environment overview
- assistance with investment projects implementation
- starting a business consultancy
- sector and regional analyses
- investment incentives consultancy
- site location & suitable real estate consultancy

FOR ESTABLISHED INVESTORS
- identification of local suppliers, service providers
- assistance with expansion preparation and execution
- relocation assistance, work/stay permits
- business networking

02 FOREIGN TRADE SERVICES

IF YOU ARE LOOKING FOR
- Slovak supplier or sub-contractor
- information about Slovak export/trade environment
- sourcing opportunities
- forming a joint venture, production cooperation or other forms of partnership with a Slovak partner

03 INNOVATION SERVICES

- supporting business development of Slovak innovative technology companies by connecting them to SARIO’s major clients — large investors established in Slovakia in order to innovate their technological processes
- the service is not limited to the borders of Slovakia, it focuses mainly on — industry, product development, service sector
- the service also aims to direct venture funds to Slovak technology companies open to capital investments

04 DIVERSIFICATION SERVICES

- supporting diversification of Slovak companies towards high-tech areas with significant growth potential
- focus on, but not limited to: space industry, aviation industry, and innovative mobility
- include consultancy for companies regarding the potential and possibilities of entering the new sectors as well as creation of new business and R&D cooperation opportunities on the national and international level

05 DIVERSIFICATION SERVICES

SERVICES FOR EXPORTERS
- information on foreign territories
- customized search for foreign partners
- on-line database of business opportunities
- export Training Centre
- subcontracting assistance

SARIO Profile
